The College of Business and Economics was founded in November of 1951 and graduated its first class in the spring of 1953. Since that time, the College of Business and Economics has become one of the largest colleges at West Virginia University. In 1954, the college became fully accredited by the AACSB International (<http://www.aacsb.edu>), the highest level of business accreditation.

In 1990, the new College of Business and Economics building was completed on the site of Old Mountaineer Stadium on the downtown campus adjacent to historic Woodburn Hall. The four-story facility houses modern classrooms, two auditoriums, state-of-the-art computer laboratories, and space for the college's research and service centers.

Overview of Programs

All graduate programs at the College of Business and Economics require that the candidate achieve a cumulative grade point average of at least 3.0 on all work counting toward the graduate degree.

The doctor of philosophy and master of arts degrees in economics prepare students for careers in business, government, and higher education. Students receive in-depth education in the concepts and methods of economic analysis and econometrics and specialize in two fields of study from financial, international, monetary, public, regional, urban economics, and resource economics. These programs are well-suited to students with undergraduate degrees in economics, finance, mathematics, statistics, public policy, history, and other humanities majors.

The doctor of philosophy degree in business administration has four areas of specialization: accounting, finance, management and marketing. Students develop deep content knowledge in their specialty along with a strong foundation in research methodology. The programs are focused on preparing graduates for research and academic careers.

The master of business administration (M.B.A.) program exposes students to graduate-level coursework in all the functional areas of business. Coursework includes an even exposure to all of the functional areas of business and provides a broad general management orientation. The M.B.A. program is offered during the day for full-time students in Morgantown. The M.B.A. program is also offered for working professionals in an online with four mandatory residencies on campus.

The master of science in industrial relations (M.S.I.R.) provides an interdisciplinary education for the student desiring a career in human resources management and industrial relations. All undergraduate majors are acceptable. Elective areas of study may include the functional areas of business, counseling, law, safety, and others.

The master of accountancy (MAcc) program is available to students with undergraduate degrees in accounting. Students without accounting undergraduate degrees can fulfill specific accounting prerequisites and be admitted to the program. The program follows the AICPA's recommendations for a five-year accounting education and meets the requirements of most states with 150-hour requirements for C.P.A. certification. The division of accounting also offers a graduate certificate in forensic accounting and fraud .

The master of finance (M.S. Fin.) program is available to students with a strong background in finance or accounting (either through undergraduate degree in finance or accounting or with five years of experience in a finance-related field). The program offers a series of courses which provides graduates with a thorough understanding of material in the C.F.A. (Chartered Financial Analyst) Candidate Body of Knowledge.

The master of science in business data analytics (MS BUDA) can be completed in a one-year or two-year plan of study. The online hybrid program offers students flexibility while encouraging them to simultaneously learn valuable business analysis skills, apply concepts in a real-world setting, and experience improved results in an accelerated learning cycle. The MS program is taught by faculty across various disciplines with both industry and academic experience from around the globe.

The master of science in forensic and fraud examination (MS FFE) is a 12-month online hybrid program geared toward early career professionals in accounting or investigative sciences looking to enhance their career opportunities through a specialized educational experience incorporating case

studies and experiential learning in the field of Forensic and Fraud Examination. Students in this program will receive the required preparation for the Certified Fraud Examiners test.

Degree Designation Learning Goals

Each degree has designated learning goals. Please refer to program webpages for specific program learning goals.

Special Requirements

Admission to all College of Business and Economics graduate programs requires a bachelor's degree from an accredited institution. The Graduate Management Admissions Test (GMAT) is preferred for all of the business graduate programs. For the M.S.I.R., the M.B.A., and the Ph.D. in Business Administration in Management program, the Graduate Record Examination (GRE) may be substituted for the GMAT. The economics programs require the GRE. Refer to program webpages for specific application requirements.
