Music Business and Industry, M.A.

Degree Offered

- Master of Arts

Nature of the Program

The music industry is a vibrant, multi-billion dollar global industry, vast in scope and reach, offering a product that is deeply ingrained into the fabric of every country and culture, across social strata, around the world. As such, it offers extensive professional opportunities to those who are trained, knowledgeable, and versed in its systems, methods, and practices.

The Master of Arts Program in Music Business and Industry at the School of Music offers such knowledge and training by providing an engaging, systematic, and rigorous course of study leading to analytical, creative, regulatory, and entrepreneurial understanding and skills necessary to succeed in today’s complex and challenging music industry field.

The program is offered online as a high quality graduate-level distance-learning opportunity. The program will provide all students possessing appropriate interest, qualifications, and ambition, regardless of their geographic location, access to extensive academic training and acquisition of professional skills necessary for building or furthering their careers in music business and industry.

The School of Music also offers a Graduate Certificate in Music Industry.

Admissions

Admission is selective and competitive. Minimum application materials will include the following:

- a bachelor’s degree from an accredited university and a GPA of 3.0 or higher;
- GRE results with minimum scores including 153 on the verbal and 144 on the quantitative GRE sections. (The GRE requirement may be waived if the student’s Bachelor’s Degree GPA is 3.3 or higher [on a 4.0 scale], and/or if professional experience in the industry exceeds 5 years, with strong academic and/or professional recommendations.)
- a curriculum vitae
- a 500-word essay describing student’s professional preferences, goals and aspirations.

COURSE REQUIREMENTS

If a student has not already completed the following undergraduate course(s) prior to registering for the program, they must complete them during the first year of the program:

- Bachelor’s Degree in Music earned - Undergraduate Accounting / Financial Management course needed

Major Learning Outcomes

MUSIC BUSINESS AND INDUSTRY

Students who earn the Master of Arts in Music Business and Industry will develop the following:

• The ability to delineate and analyze current music industry regulations regarding their commercial implications, business opportunities, and appropriate music industry management practices across the industry income streams.
• The knowledge of the historical progress and development of various music business sectors and relevant regulatory frameworks in demonstrating mastery and understanding of the present music business regulations, systems and methods.
• The ability to perform and manage standard and management level music business procedures and processes utilized in the music publishing, recording, and live music industries, including conception and management of various music product development and placement strategies and plans.

• The ability to construct and evaluate budgets and financial projections across the music industry income streams based on the project parameters, and the relevant market level, regulations, indicators and trends.

• The ability to plan and manage music production processes and activities in recording and live music business sectors including scheduling, budgeting, equipment, personnel, union issues, and regulatory requirements.

• The ability to utilize the music industry research and analysis knowledge and skills to make a constructive contribution to the scholarship in the field, and/or to create a proper business opportunity, or to productively manage a music product, so to create new value and generate positive returns on investments.
