Psychology

Degrees Offered
• Master of Science
• Doctor of Philosophy

Doctoral Program Majors
The doctoral degree major areas of study in Behavior Analysis, Behavioral Neuroscience, Clinical & Clinical Child Psychology, and Life-Span Developmental Psychology prepare students for careers in research, teaching, and/or practice.

Program Accreditation
The Clinical Program at West Virginia University is comprised of two major areas of study: Clinical Psychology and Clinical Child Psychology. The Program has been accredited continuously by the American Psychological Association since 1966. In 2012, the Program was re-accredited for a full 7 years, with the next site visit scheduled to occur in 2019. For any questions regarding accreditation of this or any other program, contact the Office of Program Consultation and Accreditation of the American Psychological Association, 750 First Street, NE, Washington, DC 20002. Phone number: (202) 336-5979. Website: http://www.apa.org/ed/accreditation.

The Behavior Analysis Program at West Virginia University is accredited by the Association for Behavior Analysis International. In 2014, the Program was re-accredited from 2014-2019.

Admission
Students are admitted only at the beginning of the fall semester. Applications must be completed by the preceding December 1.

Acceptance is based on the following:
• Adequate academic aptitude at the graduate level as measured by the Graduate Record Examination
• Achievement in undergraduate coursework with a minimum grade point average of 3.0
• Personal qualities that predict success in graduate study and as a professional after graduation
• Adequate preparation in psychology and related fields
• Fit between the applicant’s interests and the offerings of a department graduate program major area of study

Non-Degree Students
Graduate courses in psychology are designed for regularly admitted degree-seeking psychology students as part of an extensive program of preparing those students for professional careers. Thus, students not admitted into one of the psychology graduate program areas are discouraged from taking graduate courses in psychology. Non-psychology graduate students must obtain the instructor’s permission to enroll in any psychology graduate course.

Research methodology course from the following list or another methodology course approved by the student’s advising committee:

- PSYC 512: Research Design and Data Analysis 2
- PSYC 611: Single-Subject Research Methods
- PSYC 612: Multivariate Analysis
- PSYC 613: Quasi-Experimental Design
- PSYC 614: Program Evaluation and Intervention
- PSYC 711: Seminar in Methodology

Electives: 36

### Non-Course Requirements

- Thesis Proposal
- Thesis Defense Date Declaration Form
- Thesis Oral Defense Form
- ETD Approval
- Application for Graduation
- Graduation Certification: Department
- Graduation Certification: College

Total Hours: 48

* PSYC 795: A minimum of 6 credits is required

### Doctor of Philosophy

#### PSYCHOLOGY: BEHAVIOR ANALYSIS

**Major Requirements**

**Principles of Behavior**

- PSYC 531: Experimental Analysis of Behavior

**Research Methods**

- PSYC 511: Research Design and Data Analysis 1 (fulfills dept methods requirement)
- PSYC 512: Research Design and Data Analysis 2 (fulfills dept methods requirement)
- PSYC 611: Single-Subject Research Methods

**Major Learning Goals**

**PSYCHOLOGY**

Students graduating with a doctorate in psychology will acquire the following research and communication skills:

- Students will design and execute empirical research to investigate psychological topics.
- Students will conduct and interpret statistical analyses.
- Students will clearly communicate results of empirical research, both orally and in writing.
- Students will create and deliver professional oral presentations.
- Students will demonstrate expert knowledge of their area of emphasis.
- Students will be conversant with historical, philosophical, and theoretical issues in psychology.
- Students will abide by the ethical principles of the discipline of psychology.
