Social Work

Degrees Offered

- Master of Social Work
- Dual MSW/MPA

Nature of the Program

MISSION STATEMENT AND OVERVIEW

The mission of the WVU MSW program is to educate students to become advanced integrated practice social workers. The specialization in advanced integrated practice builds on generalist practice and prepares students to integrate micro, mezzo, and macro practice skills across service sectors and within interdisciplinary teams to effectively address social and human problems pertinent to a wide range of professional practice areas, with a particular emphasis on effective models of rural service delivery. The advanced integrated practice curriculum provides an integrative approach to social work where students are prepared for both direct practice and administrative roles. This curriculum prepares WVU MSW graduates to be well-rounded advanced practitioners who can respond to the complex realities of practice in a variety of roles and settings.

The program offers two degree plan options (Regular Standing and Advanced Standing) and two course delivery modalities (on campus and online). The Advanced Standing degree plan is available to students who have earned a BSW from a CSWE accredited university within the previous 8 years. Students who have not received their BSW within the previous 8 years, or who have an undergraduate degree in another discipline, can apply to the Regular Standing degree plan option. Each degree plan can be completed through a full-time or a part-time option. The full-time program is offered through the on-campus delivery modality only. The WVU MSW program is nationally accredited by the Council for Social Work Education (CSWE).

A dual degree option resulting in the Master of Social Work (MSW) and Master of Public Administration (MPA) degrees is also available through the School of Social Work and the Department of Public Administration for on campus students. The MSW/MPA dual degree program can be completed in 3 years for Regular Standing students or 2 years for Advanced Standing students, including summer coursework. Students can learn more about the MPA degree here: https://publicadmin.wvu.edu/students/master-of-public-administration

Students interested in the dual degree program must apply to and be accepted by each program (MSW and MPA) separately.

Students interested in applying for the MSW program should consult the School of Social Work website: http://socialwork.wvu.edu or contact:

CAREER OPPORTUNITIES

Graduates of the MSW program are employed throughout the United States and internationally. They work as individual, family, and group treatment specialists, planners, community organizers, and social researchers. They also work as social work educators and as administrators in a variety of programs such as mental health clinics, hospitals, correctional institutions, courts, delinquency programs, aging programs, family counseling agencies, child protective agencies, public welfare departments, child development programs, drug and alcohol abuse programs, public schools, community action agencies, settlement houses, city governments, state government planning agencies, federal administrative agencies, and private research and development organizations concerned with human problems. Social workers are the largest group of mental health service providers in the country.

There has been a constant growth in the need for professional social workers. It is anticipated by the Bureau of Labor Statistics and other research bodies that the employment demand for social workers will continue to increase in numbers and in varieties of programs. The WVU MSW social work curriculum is designed to help students prepare for these careers.

DUAL M.S.W/M.P.A.

A dual degree option resulting in the master of social work (M.S.W.) and master of public administration (M.P.A.) is available through the School of Social Work and the Division of Public Administration. For a student admitted to the regular M.S.W. program, a total of eighty-two credit hours are required to meet the dual degree requirements. For a student admitted to the advanced standing M.S.W. program, a total of sixty-nine credit hours are required to meet dual degree requirements. Many students complete such requirements through one or more additional semesters of study beyond the semesters required for the M.S.W. degree. Applicants must meet the admission requirements of each program.

Degree Progress

The School of Social Work outlines specific timelines for degree completion and policies for evaluation of student progress. Students have a total of 8 years from the date of acceptance to complete the MSW degree. If students have not been registered for courses for a period of 24 months or more, they must re-apply to the program in order to continue towards completion of the degree. At that time, the MSW committee will decide whether previously completed coursework can be applied towards the current degree plan and curriculum requirements. Students who are applying for advanced standing status after a period of inactivity must have a BSW degree within 8 years of their most recent acceptance date. Similarly, if a student was previously accepted as an advanced standing student, but has become inactive, his or her advanced standing status is considered based on the most recent acceptance date.

TIMELINES FOR DEGREE COMPLETION

Typical timelines for degree plans are as follows:

- Advanced Standing, full-time: 1 year (3 semesters)
- Advanced Standing, part-time: 2 years (6 semesters)
- Regular Standing, full-time: 2 years (5 semesters)
- Regular Standing, part-time: 3 years (9 semesters)
• Dual Degree (MSW/MPA), Advanced Standing: 2 years (6 semesters)
• Dual Degree (MSW/MPA), Regular Standing: 3 years (8 semesters)

Students are asked to sign a copy of their designated degree plan upon admission to the program. If they wish to deviate from the outlined degree plan, they must have an alternate degree plan that outlines their plan of completion that is approved and signed by the MSW director in order to continue in the program.

EVALUATION OF STUDENTS

Students receive a written evaluation of their progress in the program yearly from their academic advisor. These evaluations summarize the student's academic performance, progress in field education, professionalism and interpersonal skills, and progress towards completion of the degree plan. These evaluations are reviewed with students and kept on file at the School of Social Work.

For times when a student’s academic performance falls below the threshold, or when there are concerns regarding academic dishonesty or unprofessionalism/policy violations at the school or field placement site, the MSW program has a detailed review and remediation procedure that is clearly outlined in the MSW Student Handbook.

Major Learning Outcomes

SOCIAL WORK

The mission of the MSW program is to provide students with skills in direct practice with individuals, families, and groups, as well as program and agency administration, community development, and macro-level practice. In addition, students are trained in how to utilize these skills to foster successful interprofessional practice in a wide variety of settings. Specifically, graduates of the MSW program will be prepared to:

1. Formulate and implement integrated service delivery models appropriate to advanced practice with diverse client populations at multi-system levels.
2. Design and conduct brief and/or on-going assessment and intervention methods consistent with integrated systems and context of practice.
3. Construct an integrated evidence-informed theoretical framework appropriate to the level and context of practice situations.
4. Organize collaboration with other professions to coordinate intervention efforts suitable to the practice situation.
5. Design and conduct collaborative, practice-based evaluation methods and apply findings to improve practice, policy, and/or service delivery effectiveness.

School of Social Work Policies

The Master's program in the School of Social Work (SSW) has a detailed student handbook that outlines multiple policies related to admissions, degree requirements, field education, advising, evaluation and other policies. The MSW Student Handbook can be downloaded via the following link: MSW Student Handbook

Field Instruction

Field instruction provides the student with an opportunity to test classroom knowledge as well as to develop and refine advanced-practice skills. Field instruction opportunities are available throughout West Virginia and adjacent areas as well as in a select number of settings outside the region.
