Physical Education-Physical Education Teacher Emphasis, A.A.

Degree Offered
• Associate of Arts

Nature of the Program
Physical educators make an impact on the health, well-being, and quality of life of future generations. The Physical Education Teacher Education program at Potomac State College prepares students to teach, motivate, and shape the lives of Pre-K through adult learners in physical education, movement, wellness, and sport-based environments.

Students in the PETE program learn to use and integrate technology into their classwork, as well as how to design and deliver physical education programs. Upon program completion, graduates are prepared to apply to four-year PETE programs to pursue their bachelor’s degree.

Career Opportunities
Program graduates are physical activity and wellness leaders in their schools, communities, and states who promote healthy, active lifestyles for children and adults alike. The program has high expectations for our students and expects them to be engaged in the major while becoming proficient teachers at all levels and in all contexts.

## Major Learning Outcomes

**PE - TEACHER EDUCATION**

The goal of the program is for students to possess the skills to teach, motivate, and shape the lives of Pre-K to adult learners in physical education, movement, wellness, and sport-based environments.

- **Content Knowledge** – Students will demonstrate knowledge and disciplinary concepts related to the promotion of physical education and physical activity.
- **Reflection and Critical Thinking** – Students will demonstrate reflection and critical thinking in order to refine professional practice.
- **Programming and Assessment** – Students will demonstrate evidence-based knowledge and skills (and best practices) for assessing student needs and for designing, implementing and evaluating lesson plans and programs.
- **Professionalism and Ethics** – Students will demonstrate professional behaviors, including commitment to excellence, valuing diversity and collaboration, service to others, and techniques for lifelong learning.
- **Technology** – Students will be able to demonstrate the use of different forms of technology to enhance and assess student learning.
