Health and Well-being

Degree Offered

- Bachelor of Arts
- Bachelor of Science

Nature of the Program

The degrees offered in the Health and Well-Being program offer options for students who wish to pursue either a professional degree in health science or an alternative career pathway for those interested in community health and well-being. Students can choose to complete either a Bachelor of Arts or a Bachelor of Science in Health and Well-being.

The B.S. Health and Well-being is designed for students who aspire to be an effective part of a health care team. The major allows students to take the pre-requisite courses necessary to gain admission into these graduate level professional programs such as nursing, athletic training, physical and occupational therapy, chiropractic, or other allied health related professions. This is a great degree program for the person who wants to understand the underlying cause of disease, analyze human behavior, and identify and/or implement change. Students completing this degree option can complete an area of emphasis in:

- Therapeutic Exercise and Rehabilitation.

The B.A. Health and Well-being prepares students for careers in community health promotion and comprehensive individual lifestyle management. Through a combination of coursework and experiential learning, students will develop the essential knowledge and skills to provide leadership and problem-solving abilities to interact with individuals and communities to promote and maintain healthy lifestyles. The focus of this degree program is to student health and well-being from different perspectives including physical health/well-being, emotional and mental health/well-being, and a healthy environment/health policy. Students completing this degree option can complete an area of emphasis in:

- Adventure and Outdoor Learning
- Aquatic Physical Activity
- Fitness
- Recreational Sport.
