

Elementary Education, B.A.

Degree Offered

- Bachelor of Arts

Nature of the Program

The BA in Elementary Education program is an innovative, 4-year on-campus program at West Virginia University that prepares students to earn a teaching certification in multi-subject grades K-6 upon graduation. As part of the program, students complete work in local, public school placements during their junior year, both fall and spring. Then, students are placed in a year-long residency their senior year, working in their schools 250 hours in the fall semester and full-time in the spring semester. The BA in Elementary Education program values the learning that happens not only in the WVU classrooms, but also in the application of these lessons in the field, as students graduate with over 800 of hours of practice and experience teaching in local schools.

In addition to an emphasis on experience in local schools, the Elementary Education program is committed to high academic standards at the state and national levels. Program faculty work with national accreditation standards and contribute to the profession at university, state, and national levels. This work involves exploration of technology, diversity, global initiatives, and culturally responsive teaching, facilitated by faculty who are leaders in research, teaching, and service.

The Elementary Education program also allows the space for students to find their individual areas of interest, for which many pursue a Master's degree. Students in the program can begin working as a classroom teacher after graduation and go on to earn graduate degrees.

Major Learning Outcomes

BA ELEMENTARY EDUCATION

1. Teacher candidates will execute the instructional cycle of planning, instructing, assessing, and adjusting based on data, the learner, and the learning environment.
2. Teacher candidates will demonstrate positive, solution-based, professional verbal and written communication with sensitivity to context and audience.
3. Teacher candidates will conduct themselves in a manner that aligns with the professional dispositions for teaching, regardless of the context.
4. Teacher candidates will create and sustain a learning environment that supports the success of all learners and their adults, including developmental, linguistic, cultural, racial, ethnic, and gender diversity.
5. Teacher candidates will work collaboratively with colleagues and adults significant to students on activities that connect schools, families, and the larger community.

Policies

MATRICULATION POLICIES

- Students must earn at least a grade of "C-" in all professional education courses to remain in the BA Elementary Education program. Earning a grade less than a "C-" may result in the student being removed from the program. In this event, the student must contact an advisor immediately.
- Students who arrange to receive a grade of "I" (incomplete) must complete all requirements to change the incomplete to a grade prior to the beginning of the next semester. If the student does NOT get the grade of "I" changed to a passing grade, the student will NOT be able to matriculate to the next semester of courses. In this event, the student must contact an advisor immediately.
- Students must maintain at least a 2.75 grade point average in order to remain in the BA Elementary Education program. If the GPA falls below 2.75, the student will be permitted to continue on a probationary status for ONE semester. At the end of that semester of probation, the student's overall GPA must be at least a 2.75 in order to be eligible to continue in the program. A student is permitted only one probationary semester in the program. Should the student's GPA fall below a 2.75 a second time, that student will not be eligible to matriculate. In this event, the student must contact an advisor immediately.
