Accounting

Degree Offered

- Bachelor of Science in Business Administration

Nature of the Program

The accounting program has a rich heritage of producing successful accounting professionals and business leaders. Graduates excel on professional examinations, and the majority of students seeking employment upon graduation are successful. With a strong alumni network and a solid reputation among major accounting firms, the accounting program at WVU has an excellent record of placing students in the accounting profession.

The faculty is comprised of thirteen tenure-track faculty, four teaching instructors, and one visiting professor.

Faculty members are actively engaged in meeting the four elements of our mission:

1. Educate students at the undergraduate and graduate levels
2. Conduct and disseminate research that impacts the accounting profession, the business community, or society as a whole
3. Deliver service to the academy, the profession, and the citizens of West Virginia
4. Engage in a program of ongoing assessment and continuous improvement

The overarching goal of the accounting programs is to meet the evolving needs of its constituencies through teaching, research, and service. The undergraduate accounting degree program builds upon a general education curriculum to provide students with a base of academic knowledge in business and accounting. It is designed to integrate basic knowledge with a professional orientation and form a foundation for future learning as well as career and academic success. The accounting program and course offerings are subject to periodic review for timeliness, professional requirements, and relevance in a global marketplace.

The advanced courses in the program provide both specialized knowledge in accounting and financial reporting and an integrated overview of the economic activities of a business entity. These courses give students the basic educational foundation required for a variety of entry-level positions in accounting, business, government, and not-for-profit organizations. Accounting graduates may pursue careers that lead to positions such as certified public accountants, managerial accountants, controllers, financial officers, tax accountants, financial fraud examiners, budget analysts, internal auditors, public administration officers, and other executives.

The accounting major is also designed to give students the basic educational foundation necessary to prepare for the professional examinations that may be required of them in their careers. These examinations include those needed to become a Certified Public Accountant (CPA), Certified Management Accountant (CMA), Certified Fraud Examiner (CFE), and Certified Internal Auditor (CIA). Requirements to sit for the Uniform CPA Examination vary by jurisdiction, and students are encouraged to become familiar with the requirements of the jurisdictions where they plan to be certified. Many states, including West Virginia, require a bachelor degree to sit for the exam and 150 semester hours of college credit to be certified. The John Chambers College of Business and Economics offers a master of accountancy (M.Acc.) that helps students meet the professional certification requirement while allowing students to earn a graduate degree. The Chambers College also offers an innovative Master of Science in Forensic & Fraud Examination (MS FFE) and a graduate certificate in Forensic Accounting and Fraud Examination (FAFE), both designed to prepare entry-level accountants and others for forensic accounting and fraud investigative careers.

The accounting program at WVU has been separately accredited by AACSB International, the Association to Advance Collegiate Schools of Business, since 1997. As of March 2017, only 180 programs had achieved this distinction internationally.

Students who are direct admitted to the major and meet the requirements listed above are guaranteed permission to enroll in upper-division coursework. The Chambers College will accommodate as many accounting majors as resources are available. Students who are denied admission to the accounting major may apply for admission in a future application period or accept admission to an alternative major in the Chambers College.

* A minimum grade of a B- each in ACCT 201 and ACCT 202 is required for admission to the program and to enroll in ACCT 311, Intermediate Accounting.

** A minimum grade of C- in MATH 150 is required for admission to the program. A grade of D- in MATH 154 or a higher level of college calculus also satisfies the calculus requirement for admission to the program.

Please note that not all of the GEF courses are offered at all campuses. Students should consult with their advisor or academic department regarding the GEF course offerings available at their campus.

Degree Requirements

To qualify for the Bachelor of Science in Business Administration students must meet the following criteria:

- Complete a minimum of 120 credit hours.
- Possess an overall GPA of 2.0.
- Possess a minimum GPA of 2.0 for all major courses (i.e. ACCT, BLAW), calculated using all attempted GPA hours unless excluded by the D/F repeat policy.
- The College of Business and Economics accepts all baccalaureate transferable course work completed at public and private colleges in West Virginia and other regionally accredited institutions. Since the College is AACSB accredited, upper-division courses (courses equivalent to 300/400 level at WVU) must be evaluated by the Dean or designee before they may count toward business core, major core and major restricted electives in the Bachelor of Science in Business Administration or Bachelor of Science in Economics program.

Curriculum Requirements

Overall GPA of 2.0 required

Possess a minimum GPA of 2.0 for all major courses (i.e. ACCT, BLAW), calculated using all attempted GPA hours unless excluded by the D/F repeat policy.

Major Learning Outcomes

ACCOUNTING

The objective of providing a foundational education in accounting at the undergraduate level cannot be realized without appropriate curricula content, effective teaching, and ultimately, learning. Within the undergraduate accounting major, we subscribe to the following learning goals for each of our undergraduate students.

- Competence in core technical areas
- Knowledge of the use of accounting information systems
- The ability to identify the effect of regulatory and ethical issues on the global practice of accounting
