School of Natural Resources

Robert C. Burns, Division Director of Forestry and Natural Resources
e-mail: robert.burns@mail.wvu.edu (Robert.Burns@mail.wvu.edu)

Alan R. Collins, Division Director of Resource Economics and Management
e-mail: alan.collins@mail.wvu.edu (gdsouza@mail.wvu.edu)

Programs of Study

The School of Natural Resources is home to programs in Agribusiness Management; Energy Land Management; Environmental and Energy Resources Management; Environmental and Natural Resources Economics; Forest Resources Management; Recreation, Parks, and Tourism Resources; Wildlife and Fisheries Resources; and Wood Science and Technology. As a student in this school you may pursue a degree that enables you to begin a career in agribusiness management; arboriculture and urban forestry; conservation ecology; environmental and resource economics; fisheries biology; forest management; forest products industry; land management; natural resources (including energy) management; outdoor recreation, and wildlife biology. Students are also well-prepared for graduate study in these or allied fields.

Courses that you will take in the School depend on a student’s particular program. A primary mission of the School of Natural Resources is to further the understanding, stewardship, and sustainable use of renewable natural resources by educating students to become knowledgeable professionals and citizens, advancing and communicating research knowledge, and providing technical information and professional service to society. Students completing a Bachelor of Science degree in the School of Natural Resources fulfill broad general education foundation requirements, Bachelor of Science degree requirements, and a study of at least one discipline in depth. The School of Natural Resources strives to spark a passion in our students for the principles of stewardship and sustainability of our renewable natural resources by:

- offering students the education to assume leadership roles
- advancing research knowledge
- providing technical information and professional service to society

Accreditation

The B.S.F. in Forest Resources Management and B.S. in Recreation, Parks, and Tourism Resources are accredited by the Society of American Foresters. The Wildlife and Fisheries Resources curriculum requires the coursework needed for professional certification by The American Fisheries Society (Fisheries emphasis) or The Wildlife Society (Wildlife emphasis) under 2014 guidelines. The Wood Science and Technology program is accredited by the Society of Wood Science and Technology. The Energy Land Management program is one of twelve programs in North America accredited by the American Association of Professional Landmen.

FACULTY

DIVISION DIRECTORS

- Robert C. Burns (Director, Division of Forestry and Natural Resources) - Ph.D. (The Pennsylvania State University)
- Alan R. Collins (Director, Division of Resource Economics and Management) - Ph.D. (Oregon State University)

PROFESSORS

- James T. Anderson - Ph.D. (Texas Tech University)
  Wildlife ecology and management
- Robert C. Burns - Ph.D. (The Pennsylvania State University)
  Understanding recreational behavior, motivations, and satisfaction levels
- Alan R. Collins - Ph.D. (Oregon State University)
  Resource economics
- Ben Dawson-Andoh - Ph.D. (University of British Columbia)
  Wood microbiology and chemistry
- John W. Edwards - Ph.D. (Clemson University)
  Wildlife ecology and management
- Kyle J. Hartman - Ph.D. (University of Maryland)
  Aquatic ecology, Fish management
- David W. McGill - Ph.D. (The Pennsylvania State University)
  Woodland owner outreach, forest regeneration
- Joseph F. McNeel - Ph.D. (Virginia Tech)
  Forest harvest and operations
• J. Todd Petty - Ph.D. (University of Georgia)
  Stream and river ecology, watershed assessment and restoration
• Tim T. Phipps - Ph.D. (University of California, Davis)
  Resource economics, Agricultural policy
• Chad Pierskala - Ph.D. (University of Minnesota)
  Public resource land management and agricultural tourism
• Peter V. Schaeffer - Ph.D. (University of Southern California)
  Regional science, Applied microeconomics
• Steven Selin - Ph.D. (University of Oregon)
  Human dimensions and Natural resources management
• Michael P. Strager - Ph.D. (West Virginia University)
  Spatial analysis, Decision support
• Jingxin Wang - Ph.D. (University of Georgia)
  Biomass logistics, utilization and bioenergy, forest BMPs

ASSOCIATE PROFESSORS
• Cheryl Brown - Ph.D. (University of California, Berkeley)
  Agricultural and food policy and economics, Agribusiness
• Gregory A. Dahle - Ph.D. (Rutgers University)
  Arboriculture and urban forestry
• Jinyang Deng - Ph.D. (University of Alberta)
  Ecotourism
• Levan Elbakidze - Ph.D. (Texas A&M University)
  Shale gas; water and energy economics
• Kathryn Arano Gazal - Ph.D. (Mississippi State University)
  Forest economics and policy
• Jamie Shuler - Ph.D. (North Carolina State University)
  Forest regeneration and restoration
• Kaushlendra Singh - Ph.D. (University of Georgia)
  Thermo-chemical conversion and bioenergy
• Doolarie Singh-Knights - Ph.D. (West Virginia University)
  Agribusiness and entrepreneurship; Extension
• Dave Smaldone - Ph.D. (University of Idaho)
  Environmental and Cultural Interpretation, Nature-based tourism
• Mark Sperow - Ph.D. (Colorado State University)
  Production and resource economics
• Ben D. Spong - Ph.D. (Oregon State University)
  Forest operations, roads, and harvesting
• Amy Welsh - Ph.D. (University of California-Davis)
  Conservation genetics and wildlife forensics
• Nicholas P. Zegre - Ph.D. (Oregon State University)
  Watershed and forest hydrology

ASSISTANT PROFESSORS
• Donald Brown - Ph.D. (Texas State University)
  Herpetology, wildlife ecology
• Elizabeth Byrd - Ph.D. (Purdue University)
  Energy, Law, Agribusiness
• Sophan Chhin - Ph.D. (University of Alberta)
  Quantitative forest management
• Xiaoli Etienne - Ph.D. (University of Illinois)
  Commodity futures markets and price analysis
• Shawn Grushecky - Ph.D. (West Virginia University)
  Energy land management
• Christopher Lituma - Ph.D. (University of Tennessee)
  Ornithology and bird ecology
• Gloria Oporto - Ph.D. (University of Maine)
Biomaterials
• Christopher Rota - Ph.D. (University of Missouri)
  Applied vertebrate ecology
• Heather Stephens - Ph.D. (Ohio State University)
  Resource, energy and regional economics

VISITING ASSISTANT PROFESSORS
• Charlene Kelly - Ph.D. (Virginia Tech)
  Watershed biogeochemistry
• Kirsten Stephan - Ph.D. (University of Idaho)
  Soil and vegetation management

ADJUNCT PROFESSORS
• Patricia M. Mazik - Ph.D. (Memphis State University)
  Aquatic toxicology, fish physiology
• Sheldon Owen - Ph.D. (West Virginia University)
  Extension wildlife specialist
• Stuart A. Welsh - Ph.D. (West Virginia University)
  Ichthyology
• Petra B. Wood - Ph.D. (University of Florida)
  Avian ecology

In this section:
• Arboriculture (p. 3)
• Agribusiness Management (p. 4)
• Agricultural and Natural Resources Law (p. 4)
• Conservation Ecology (p. 5)
• Environmental Economics (p. 5)
• Forestry Resources Management (p. 5)
• Recreation, Parks, and Tourism Resources (p. 6)
• Sustainable Low-Rise Residential Construction (p. 6)
• Wildlife and Fisheries Resources (p. 6)
• Wood Science and Technology (p. 7)

ARBORICULTURE
MINOR CODE - U073

The minor in arboriculture is designed to provide students educational opportunities in the area of ornamental horticulture as it relates to current urban environments. Emphasis is given to the establishment and management of herbaceous and woody plants used in commercial, recreational, and home settings.

A minimum GPA of 2.0 is required in all minor courses

Select two of the following electives:  
AGRN 315  Turfgrass Management  
FMAN 440  Forestry Consulting  
HORT 262  Herbaceous Plant Materials  
HORT 441  Garden Center Management

Total Hours 24

* Must be related to an arboriculture topic and must be approved in advance by the director of the Division of Plant and Soil Sciences or the director of the Division of Forestry and Natural Resources.

AGRICULTURAL AND NATURAL RESOURCES LAW
MINOR CODE - U139

Program Requirements

A minimum grade of C- is required in all courses for the minor.

Minor Requirements

ARE 382  Agricultural and Natural Resources Law  3
RESM 450  Land Use Planning Law  3
RESM 480  Environmental Regulation  3

Select one of the following:

ARE 482  Enterprise Operation Law  3
ENLM 400  Energy Land Management Contracts 1

Select one of the following:

ARE 450  Agriculture, Environmental and Resource Policy  3
ENLM 420  Energy Land Management Contracts 2
FOR 421  Renewable Resources Policy and Governance
RESM 455  Practice of Land Use Planning

Total Hours 15
CONSERVATION ECOLOGY

MINOR CODE - U071

This minor is designed to provide students specialized knowledge and skills in the area of conservation ecology. Completion of this minor allows new career opportunities, enhances lifelong learning, and promotes the role of an informed and active citizen.

FORESTRY RESOURCES MANAGEMENT

MINOR CODE - U090

The minor in Forestry Resources Management is designed to provide students educational opportunities in the area of forest resources management. Emphasis is given to those courses that provide a specific skill set or knowledge base needed to understand sustainable forest management in the Appalachian region. This minor requires a grade of C or higher in each course.

A grade of C or higher must be earned in all minor courses

### RECREATION, PARKS, AND TOURISM RESOURCES

**MINOR CODE - U085**

The minor in Recreation, Parks, and Tourism Resources is designed to provide students with specialized knowledge and skills that may open the door to new career opportunities, enhance lifelong learning, and promote their role as an informed and active citizen. The minor emphasizes the ecological, economic, and social psychological aspects of managing outdoor recreation and tourism resources. A grade of "C" or higher must be earned in all courses counted toward the minor.

### SUSTAINABLE LOW-RISE RESIDENTIAL CONSTRUCTION

**MINOR CODE - U126**

This minor is designed to provide students with a background in sustainable low-rise residential (i.e. single family, multi-family town houses and 2-3 story apartment buildings) construction materials and practices.

WOOD SCIENCE AND TECHNOLOGY

The minor in Wood Science and Technology is designed to provide students with specialized knowledge and skills in the properties, manufacture, and utilization of wood and related biomaterial products. Emphasis is given to courses that provide a fundamental education in the properties of wood, manufacturing processes for wood-based materials, and utilization of wood materials.

MINOR CODE - U045

A minimum GPA of 2.0 is required in all minor courses
