

Anthropology, B.A.

Degree Offered

- Bachelor of Arts

Nature of the Program

Anthropology is a deeply comparative and participatory discipline that prepares students for meaningful life and work in our diverse and ever more interconnected world. The curriculum fosters an awareness of the structure and diversity of human societies, past and present, and offers a broad range of perspectives on the experiences and meanings of being human. Students are exposed to the methods of inquiry and to the special knowledge and insights of anthropology. Courses in the department also are intended to facilitate the application of anthropological principles to a wide range of contemporary social problems.

Anthropology graduates may pursue careers in nonprofit, public, or private sector fields. Majors are well-equipped for graduate training in the social sciences in pursuit of academic or applied research careers. For more information about this program, please visit the departmental website (<https://soca.wvu.edu/students/undergraduate-students/b-a-in-anthropology/>).

Students who earn a degree in the Eberly College of Arts and Sciences must complete the University requirements, the College requirements for their specific degree program, and their major requirements.

Minors

All students have the possibility of earning one or more minors; view a list of all available minors and their requirements (<http://catalog.wvu.edu/undergraduate/minors/>) here. Please note that students may not earn a minor in their major field.
