

Neuroscience

Minor Code - U232

Code	Title	Hours
The Neuroscience minor has been designed for students who have a solid foundation in biology or psychology (or both). The biology electives require BIOL 115 through BIOL 219, and the psychology electives require PSYC 101 through PSYC 204.		
A minimum grade of C- must be earned in all courses to be applied to the minor.		
Core Courses		7
NRSC 101	Introduction to Neuroscience	
NRSC 201/201L or PSYC 301/301L	Biological Foundations of Behavior	
Upper-Division Electives		9
Select three of the following:		
BIOL 348	Neuroscience 1	
BIOL 339	Animal Communication & Behavior	
BIOL 349	Neuroscience 2	
BIOL 439	Neuroethology	
BIOL 472	Neurodevelopmental Disorders	
BIOL 474	Neurogenetics and Behavior	
BIOL 475	Neurobiological Diseases	
BIOL 477	Evolution of the Human Brain	
BIOL 478	Sensory Neural Systems and Behavior	
BIOL 479	Principles of Systems Neuroscience	
PSYC 425	Perception	
PSYC 426	Physiological Psychology	
PSYC 427	Neuroscience of Sleep	
PSYC 428	Hormones and Behavior	
PSYC 429	Clinical Neuroscience	
Total Hours		16
